DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3 and 5, drawn to an isolated polynucleotide expression vector and isolated cDNA molecule, classified in class 435, subclass 320.1.
 - II. Claim 4, drawn to a substantially isolated protein, classified in class 530, subclass 350.
 - III. Claim 6, drawn to an antibody, classified in class 530, subclass 387.1.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I–III are patentably distinct products because each of the products of Groups I–III are independent chemical entities that require different literature searches. Polypeptides, which are composed of amino acids, and polynucleotides, which are composed of purine and pyrimidine units, are structurally distinct molecules. Furthermore, the protein of Group II and the antibody of Group III are structurally distinct molecules, where the protein of Group II is a large molecule which contains potentially hundreds of regions to which an antibody may bind and the antibody of Group III is defined in terms of its binding specificity to a small structure within the protein of Group II.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and different classification, restriction for examination purposes as indicated is proper.
3. A telephone call was made to Peter Seferian on 11/15/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christian L Fronda whose telephone number is (571)272-0929. The examiner can normally be reached Monday-Friday between 9:00AM - 5:00PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapura N Achutamurthy can be reached on (571)272-0928. The fax phone number for the organization where this application or proceeding is assigned is (571)273-8300.
